

## **End *Citizens United* Questionnaire**

Bryan Caforio for Congress, California Congressional District 25

**1.**

*Citizens United* has forever changed the political landscape and corporations and wealthy individuals now can effectively silence the majority of voters by spending an unlimited amount of money. I will fight in Congress for effective limits and disclosure laws.

**2.**

In fact, I have taken a pledge to support a Constitutional Amendment to overturn *Citizens United*.

**3.**

I support the identified legislative proposals, and in Congress I will study and fight for the best ways to eliminate the corrupting influence of money in politics.

**6.**

As long as we continue to have money in politics, we need to make sure that we require robust disclosures so that everyone can clearly determine which people or organizations support a candidate or position.

**11.**

I support comprehensive campaign finance reform, including: (1) a Constitutional amendment overturning *Citizens United*; (2) increased disclosure requirements for political spending; (3) donation matching so that small dollar donors have a greater voice in the process; and (4) closing the revolving door between federal officials and lobbyists to improve ethics in government.

Bryan J.E. Caforio
