ABOUT END CITIZENS UNITED PAC

End Citizens United PAC (ECU) is dedicated to ending the tidal wave of unlimited and undisclosed money that has reshaped our politics and damaged our democracy.

ECU is a community of more than 3 million Americans dedicated to reforming our nation's broken campaign finance system and ending *Citizens United*. Our supporters are active and engaged in the political process as a progressive grassroots community dedicated to electing campaign finance reform champions.

Our strength comes from the power of many individuals standing together to call for change. We're proud to be supported by more than 300,000 donors across America who helped create a groundbreaking model that proved there's a way for the grassroots to compete with corporate special interests and billionaires.

ABOUT THIS SURVEY

ECU will use this questionnaire and past votes, statements and actions on campaign finance issues to guide our process for selecting candidates to endorse.

ECU takes a full and comprehensive approach to rectifying the severe consequences the *Citizens United* decision has had on our elections. There are many avenues to fixing our broken campaign finance system: Enacting a constitutional amendment to overturn the *Citizens United* decision, confirming federal judges and Supreme Court Justices who believe political donations do not equate to political free speech, and supporting legislation that will bring full disclosure of and limits to the money flowing into our elections.

Kindly return your completed questionnaire by sending an electronic copy to Jordan Wood at Jordan@endcitizensunited.org. Your answers to this questionnaire as well as any endorsements made by End Citizens United PAC will be released to the public.

I have always believed that our democracy is rooted in the ability of every citizen to participate equally in elections. I've seen how the influence of unlimited campaign contributions and dark money drown out the voices of everyday working families and have prevented us from taking reasonable steps to address real problems on a host of issues that the majority of Americans strongly believe in. As our elections are under further attack and duress from outside influence, we need to be more diligent and active than ever.
