The Senate rejected the Republican proposal for extending the Bush-era tax rates in a straight up-or-down vote Wednesday.

GOP Sens. Susan Collins (R-Maine) and Scott Brown (Mass.) joined Democrats in voting against the GOP plan, which would have extended the Bush-era tax rates and other current tax policies.

“Bush Tax Cuts Have Provided Extremely Large Benefits to Wealthiest Americans Over Last Nine Years.” Center on Budget and Policy Priorities, 7/30/12

The tax cuts first enacted under President Bush in 2001 and 2003 have made the tax code less progressive and delivered a large windfall to the highest-income taxpayers.

…

The average tax cut that people making over $1 million received exceeded $110,000 in each of the last nine years — for a total of more than $1 million over this period.

“Senate Rejects Five Budget Plans Amid Republican Complaints.” Bloomberg, 5/16/12

The chamber rejected, on a 41-58 procedural vote, House Budget Committee Chairman Paul Ryan’s plan calling for deep cuts in government spending as well as in taxes. Five Senate Republicans opposed Ryan’s plan, among them Scott Brown of Massachusetts and Dean Heller of Nevada, both of whom face competitive election contests.

“Winners and Losers: Understanding the Ryan Plan’s Potential Tax Implications for America’s Workers.” US Congress Joint Economic Committee, 6/20/12

Under the Ryan plan, the current progressive tax code would be replaced with just two tax brackets – 10 percent and 25 percent. The higher bracket would be a significant reduction from the 39.6 percent that high-income taxpayers will pay beginning January 1, 2013, under current law.

Oil and Gas Tax Breaks – Cloture, Vote #63, Congressional Quarterly, 3/29/12
Motion to invoke cloture (thus limiting debate) on the bill that would roll back certain tax preferences for large oil and gas companies. The bill would use revenue generated from eliminating certain oil and gas tax incentives to pay for an extension of some renewable-energy tax credits and incentives.

“Senate defeats bill to strip subsidies from oil companies.” Boston Globe, 3/29/12
Senate Republicans, including Scott Brown of Massachusetts, today foiled President Obama’s plan to strip $24 billion in tax subsidies from the country’s largest oil companies, potentially fueling an election-year issue among voters disgruntled by escalating gas prices.

“Senate Votes to Keep Oil and Gas Tax Subsidies.” Roll Call, 3/29/12
After almost a week of political jockeying, the Senate today rejected legislation that would repeal tax breaks for the biggest five oil companies and would extend 19 renewable energy tax subsidies that expired at the end of 2011 or are near expiring.

Senate Democrats’ second attempt in less than 24 hours to advance the campaign finance bill failed Tuesday — even after at least 16 senators held the floor for six hours Monday night in support of the measure.

On a strictly partisan 53-45 vote, it fell short of the 60 votes needed to break a GOP filibuster. Sens. Mark Kirk (R-Ill.), who is recovering from a January seizure, and Richard Shelby (R-Ala.) did not vote.

The bill, sponsored by Sen. Sheldon Whitehouse (D-R.I.), would force unions, nonprofits and corporate interest groups that spend $10,000 or more during an election cycle to disclose donors who give $10,000 or more.

These nonprofits, also known as 501(c)(4)s or c4s for their section of the tax code, don't have to disclose their donors to the public.
